MISCELLANEOUS.

OFFICE OF THE REGISTRAR OF CO-OPERATIVE SOCIETIES IN MYSORE.

Notification No. 1259—C. S., dated 3rd—4th February 1913.

The following model prospectus and Bye-laws for a Jaggory Manufacturing Co-operative Society, Limited, are published for the information of the public.

M. A. NARAYANA IYENGAR,
Registrar of Co-operative Societies in Mysore.

PROSPECTUS FOR..... JAGGORY MANUFACTURING CO-OPERATIVE SOCIETY, LIMITED,.....

It is well known that sugar cane growing is very profitable. It is our duty to further its cultivation. This requires capital and we can find it best by the cane-growers forming themselves into a Co-operative Credit Society.

2. After the cane is grown it has to be milled and converted into jaggory. The present method of using bullock-power is wasteful and costly. With larger mills driven by oil-engines 20 per cent more juice can be obtained at less cost.

3. Such machinery will cost about Rs. 9,000 for working about 100 acres of cane. The daily expenses of working amount to about Rs. 50. But in spite of this heavy expenditure and initial outlay, the yield in jaggory is estimated to increase in worth from 16,000 to 21,000 rupees for these hundred acres.

4. This enormous increase in profit can also be secured to the cane-growers, if they raise the necessary capital, buy the machinery and work it co-operatively.

5. The capital being large, individual raiyats cannot start the concern. Also it is desirable that every cane-grower should share in the profits, instead of his custom going to swell the profits of the jaggory manufacturer. Hence the raiyats should form a Co-operative Society for the manufacture of jaggory also.

6. The draft Bye-laws of a Co-operative Society jointly for credit and jaggory manufacture are hereto appended. The cane-growers of.....are recommended to adopt them with suitable modifications, if any, and apply to the Registrar of Co-operative Societies in Mysore for a Society being registered for their benefit.

7. Such a Society will enjoy all the privileges of a Co-operative Society; under Regulation, III of 1905.

8. The Government of His Highness the Maharaja of Mysore is also anxious to promote the welfare of the raiyats and give them further assistance in their endeavours to establish paying industries in the State. They have recently constituted a Department of Industry and Commerce for this very purpose. This department may be expected to provide the following facilities for jaggory manufacturing Co-operative Societies:—

- (1) The department to purchase the best machinery in the cheapest market charge to the Society only cost price.
 - (2) The department to assist in securing for the Society's manufactory the most suitable site available.
 - (3) The department to supervise the erection of the machinery in the selected localities free of cost.
 - (4) The department to supervise the working of the factory free of cost for one season and train the men employed in the business.
 - (5) The department to supply expert advice free, once or twice during every season of cane-crushing, as may be desired by the Society, for the next four years.
 - (6) The department to procure for the Society a sum upto Rs. 10,000 as a loan for five years, the money to be free of interest for one year and thereafter to carry interest at 7½ per cent, the entire sum being repayable in four annual instalments of Rs. 2,500 after the first year.
9. The following gentlemen have formed themselves into a Provisional Committee with power to add to their number, to take steps to float the Co-operative Society and to arrange for its registration under the Co-operative Societies Regulation.
10. Any person desirous of purchasing shares and joining as a member will please apply in the enclosed form on or before the..... to.....Secretary to the Provisional Committee.
